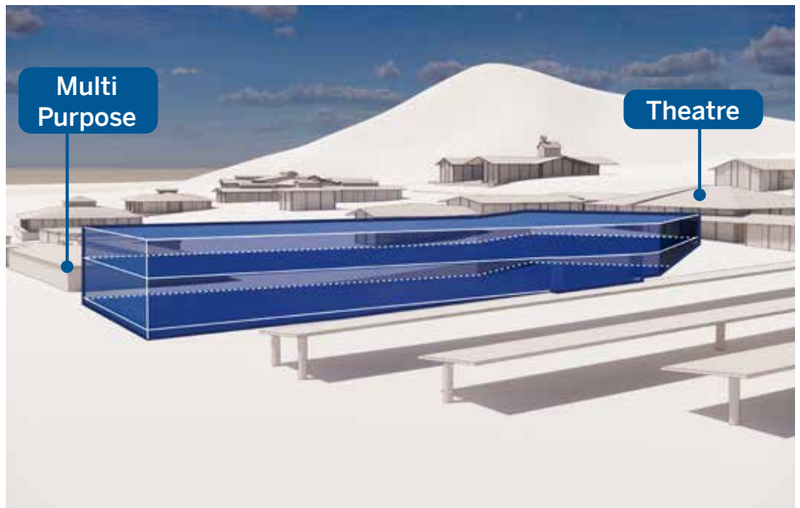
Perpsective View Concepts



FLIPPED BAR 01

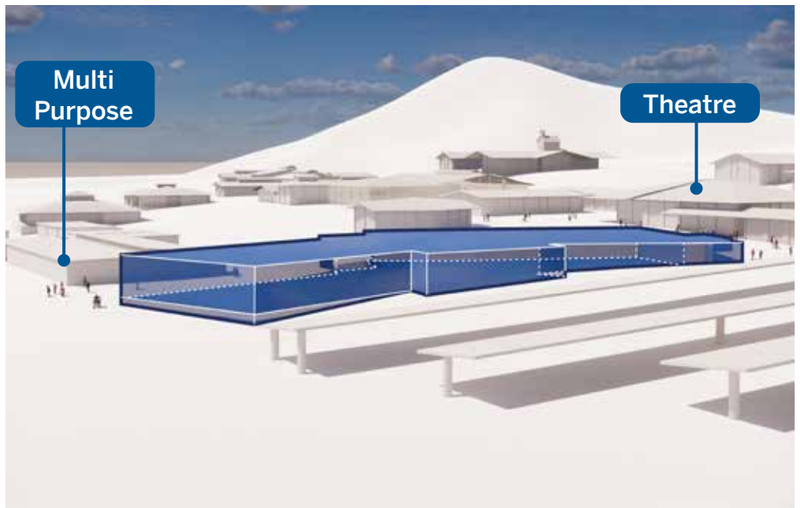
Two Levels

Strong relationship with theater building

Creates an entry plaza

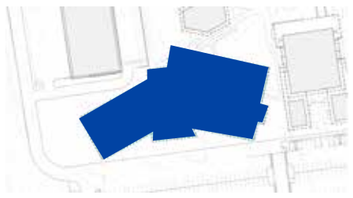
High visibility of collection area

Library collection is partially underground



SPLIT BAR 02

One Level + Split Level



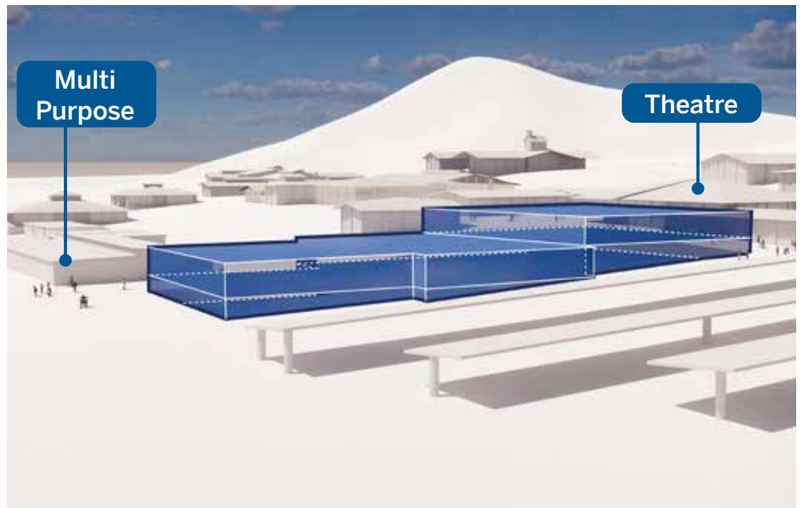
Creates entry plaza

All Student Services Programs are on one level

Collection area is isolated and not visible

Pantry has no outdoor access

Change in elevation may create issues accessing natural light



LINEAR BAR 03

Three Levels

Student Services programs are split

Fluid relationship with Multipurpose building

High visibility of collection area

Higher level is accessible by internal circulation and outdoor entrance close to AEC

Building Concepts: Comparison

Thank You
